CALIFORNIA / TIJUANA

Your implant cost report

Chula Vista / Single implant and crown · one tooth

November 2026 · US dollars

Planning totals

Published base fees with illustrative extras and travel expenses.

California
Michael G. Foust, DDS
$4,299

SOTA Dental · Tijuana
Partner clinic A
$1,849

California minus Tijuana

$2,450

The California plan costs more within these inputs.

What went into the totals

	California	Tijuana
Treatment base	$4,199	$1,499
Required extras	$100	$100
Travel added to Tijuana plan		$250

Sample uses a published California fee and the supplied SOTA team price sheet. Comparable scope, eligibility, extras and travel are illustrative assumptions. Ask both offices for written confirmation.

Scope and source notes

Your treatment assumptions

Single implant and crown · one tooth · Partner clinic A · Quantity 1. California base uses the selected published offer, subject to its unit, scope and eligibility.

Michael G. Foust, DDS · San Diego · Observed 2026-11-28 · per tooth

The San Diego coupon covers an implant, abutment and crown for patients paying without insurance. It excludes surgical guides, grafting and sinus surgery. The sample assumes eligibility and matching restorative components. Ask both teams to confirm the final abutment and crown material. The Tijuana base uses Partner A's rate for one standard-brand implant and crown.

Your travel inputs

All-trip transport and parking, illustrative · $250

Before you book

Ask both clinics to confirm the final restoration, treatment stages, required extras, number of visits and where adjustments will be handled. Keep the written terms for each team.

Questions for your coordinator

Which components, material and treatment stages are included in this price, and which would appear on a separate invoice? Ask for the answer on a dated estimate.

Which visits require a return trip, and where can I arrange service once I am back in California? Add only appointments and costs confirmed for your situation.
